EXPERTISE

- As a full-stack developer, I possess expertise in front-end technologies such as HTML, CSS, and JavaScript for creating intuitive and responsive user interfaces. On the back end, I am proficient in server-side scripting languages like Node.js along with experience in database management using systems like MongoDB.
- I have a strong grasp of various frameworks, both on the front end (e.g., React) and back end (e.g., Nest.js and Express). This allows me to efficiently develop and maintain web applications, ensuring seamless communication between the user interface and server-side functionalities.
- I also have a good understanding of Adobe illustrator and Adobe Photoshop.

HOBBIES

- Diving into the thrilling realm of football, I find joy in the dynamic plays, strategic maneuvers, and the camaraderie forged on the field. It's not just a sport; it's a captivating journey that fuels my enthusiasm.
- Exploring the cinematic landscape, my love for movies extends beyond mere entertainment. It's about experiencing diverse genres, appreciating storytelling nuances, and discovering the profound impact of visuals and narratives on the human experience.

PROFESSIONAL EXPERIENCE

Frontend-Engineer

Zealworkers

2024 - Present

- Overview:** Contributed to the development of "ZealWorkers," a professional networking platform similar to LinkedIn that allows users to register either as clients or freelancers. The platform connects clients with skilled freelancers for various projects and services.
- Key Responsibilities:**
 - Designed and implemented the front-end architecture using modern web technologies.
 - Developed user registration and authentication interfaces, enabling users to create profiles as clients or freelancers.
 - Created dynamic and responsive user interfaces for posting, searching, and applying for job opportunities.
 - Integrated messaging and notification components to facilitate seamless communication between clients and freelancers.
 - Ensured the platform's responsiveness and performance across different devices and browsers.
- Achievements:**
 - Successfully launched a user-friendly and visually appealing platform, attracting a diverse user base of clients and freelancers.
 - Enhanced user engagement through an intuitive interface and efficient navigation.
 - Received positive feedback for the platform's ease of use and aesthetic design.
- Technologies Used:** React, SCSS, Mixin, Material UI, Zustand, Axios, Framer Motion, AOS

PROFESSIONAL EXPERIENCE

Full-stack developer

RechargeX

2023

- Overview:** Developed a fullstack VTU (Virtual Top-Up) website that provides users with a seamless experience for topping up airtime, data, and other digital services. The platform features secure user login functionality and efficient payment integration.
- Key Responsibilities:**
 - Designed and implemented the front-end using React to create dynamic and responsive user interfaces.
 - Developed back-end services with NestJS to handle user authentication, transactions, and data management.
 - Integrated user registration and authentication systems, ensuring secure access to user accounts.
 - Implemented payment gateway components to facilitate secure and efficient transactions.
 - Ensured the website's responsiveness and performance across different devices and browsers.
- Technologies Used:** React, NestJS, Ant Design, Zustand, Axios, Passport.js, Flutterwave
