Summary

I am a dedicated software engineering professional with a strong track record in designing, developing, deploying, and maintaining dynamic web applications. Skilled in a wide range of technologies, including JavaScript, Typescript, ReactJS, ReactNative, NextJS, TailwindCSS, Node.js, NextJS, MongoDB and MySQL, I excel at building robust and scalable solutions. With extensive experience working in collaborative, agile-driven team environments, I am passionate about delivering innovative and efficient software tailored to meet diverse customer needs.

Skills

- **Languages:** JavaScript, TypeScript, HTML, SQL
- **Frontend:** React, Next.js, Ant Design, Material UI, Tailwind CSS, SCSS, Styled Components
- **Backend:** Node.js, Nest.js, Express, JWT, OAuth, REST APIs, Prisma
- **Databases:** MySQL, MongoDB, PostgreSQL, AWS RDS, Google Cloud SQL
- **Tools:** Git, GitHub, GitLab, Visual studio code, Docker, Insomnia, Postman, Photoshop, Illustrator
- **Practices:** Agile/Scrum, CI/CD, Problem-Solving
- **Soft Skills:** Cross-Functional Collaboration, Excellent Communication

Professional Experience

Intern | CyberBud

Apr 2021 - Feb 2022

- Worked as a Full-stack web developer, focusing on the maintenance of high functionality and user experience.
- Implemented user interfaces with React.js and TailwindCSS.
- Collaborated with UI/UX designers to ensure seamless, visually appealing website designs.
- Built server-side logic and applications using Node.js and Express.js, integrated databases, and ensured data security.

Full-Stack Developer | Ivonix Creative Agency

2024

- Developed and deployed web applications using modern technologies like React, Node.js, and MySQL.
- Built both front-end and back-end components, ensuring seamless user experience and robust system performance.
- Collaborated with cross-functional teams to design and implement creative solutions for clients.
- Contributed to the agency's growth by delivering high-quality solutions on time.

Full-Stack Developer | Centralearn

2024

- Designed and developed a subscription-based video platform with secure authentication, payment integration, and adaptive streaming.
- Built a scalable Node.js and MySQL backend and a responsive React interface for a seamless user experience.
- Successfully launched, attracting a growing user base and receiving positive feedback for performance and usability.

Frontend Developer | Zealworkers

2024

- Designed and implemented a responsive front-end architecture for a client-freelancer platform using modern web technologies.
- Built user registration, authentication, job posting, search, and messaging interfaces to enhance engagement and usability.
- Successfully launched a visually appealing platform, attracting a diverse user base and receiving positive feedback for ease of use and design.

Frontend Developer | Batikash

2024

- Designed and implemented a responsive front-end architecture for an e-commerce platform using modern web technologies.
- Developed user registration, authentication, product listing, search, and messaging interfaces to enhance the shopping experience and user engagement.

Education

Federal University of Agriculture

Apr 2018 - Feb 2023

Bachelor Degree in Pure and Applied Chemistry

Certification

- **CS50: Introduction to Computer Science** | Harvard University | 2021
 - Learned algorithms, data structures, and software engineering basics.
 - Gained proficiency in C, Python, and SQL.
- **Full Stack Web Development** | Udemy | 2022
 - Built full-stack apps with React, Node.js, and Express.
 - Learned database integration and secure authentication.
